

**Virginia Brownfields Restoration and
Economic Redevelopment Assistance Fund**

Site Assessment and Planning Grant

Guidelines and Application

Virginia Economic Development Partnership

Fiscal Year 2026

Guidelines for the Virginia Brownfields Restoration and Economic Redevelopment Assistance Fund Site Assessment and Planning Grant

Purpose:

The Virginia Brownfields Restoration and Economic Redevelopment Assistance Fund (VBAF) was established pursuant to § 10.1-1237 of the *Code of Virginia* of 1950, as amended (the Code), to provide either grants or loans to local governments to promote the restoration and redevelopment of brownfield sites and to address environmental problems or obstacles to reuse so that these sites can be effectively marketed to new economic development prospects.

Administration:

The VBAF is administered by the Virginia Resources Authority (VRA).

The Virginia Economic Development Partnership (VEDP) directs the distribution of grants or loans from the VBAF to grant or loan recipients (VBAF Program), in consultation with the Virginia Department of Environmental Quality (DEQ) based upon the priorities and procedures set forth in these Guidelines.

These Guidelines address the Site Assessment and Planning Grants available through the VBAF Program. Site Remediation Grants are also available through the VBAF Program and managed pursuant to separate guidelines.

All awards issued through the VBAF Program will be in the form of grants.

VBAF Program Priorities:

The VBAF Program is targeted toward projects or phases of work associated with the restoration and redevelopment of brownfield sites that by their completion **will generate additional private investment and job creation in the immediate future.**

Applications for such projects or phases of work will be evaluated, and grants will be awarded based upon the following priorities:

- **Potential for redevelopment and reuse of the site** - sites with significant potential for redevelopment and reuse, including demonstrable interest in the property for economic development purposes and appearance in the comprehensive plan of the community in which the property is located.
- **Economic benefits** – projects or phases of work with a specific relationship to a local or regional economic development strategy and where redevelopment could be a catalyst to larger revitalization projects and economic benefits to the surrounding community.
- **Environmental benefits** – environmental issues can be resolved with grants from the VBAF Program and other available funding within a relatively brief period of time and the site redeployed.

- **Use or reuse of existing infrastructure** – projects or phases of work that seek to repurpose or redevelop a property currently served by existing infrastructure, rather than property not so currently served.
- **Limited ability to draw on other funding sources** – small communities or communities with a local unemployment rate or poverty rate that exceeds the statewide unemployment rate or poverty rate and have limited ability to draw on other funding sources.

VBAF Site Assessment and Planning Grants:

Pursuant to § 10.1-1237 of the *Code*, the VBAF may be used to pay the reasonable and necessary costs associated with the restoration and redevelopment of a brownfield site.

VBAF Site Assessment and Planning Grants are to be used to help fill a financing gap for projects or phases of work for such restoration and redevelopment that have not already commenced. The VBAF Site Assessment and Planning Grant is not available to reimburse for costs already incurred for a project or phase of work that has begun or is already completed.

VBAF Site Assessment and Planning Grants, in amounts of up to \$50,000, are available to assist with the costs of:

- (i) environmental and cultural resource site assessments;
- (ii) development of remediation and reuse plans;
- (iii) remediation of a contaminated property to remove hazardous substances, hazardous wastes, or solid wastes;
- (iv) the necessary removal of human remains, the appropriate treatment of grave sites, and the appropriate and necessary treatment of significant archaeological resources, or the stabilization or restoration of structures listed on or eligible for the Virginia Historic Landmarks Register; or
- (v) demolition and removal of existing structures, when necessary, to abate the hazardous material or other site work required to make a site or certain real property usable for new economic development.

VBAF Site Assessment and Planning Grant proceeds are to be used only for the necessary and reasonable costs incurred in accordance with the scope of work set forth in an applicant's VBAF Site Assessment and Planning Grant Application (Attachment A) and the performance agreement setting forth the terms and conditions of the VBAF Site Assessment and Planning Grant.

VBAF Site Assessment and Planning Grant proceeds may not be used as a substitute for other funding already committed to the project or phase of work or for regularly recurring local fiscal obligations, such as personnel, project management, administrative, and related costs. Up to five percent (5%) of VBAF Site Assessment and Planning Grant proceeds may be used to cover administrative costs specifically associated with a project or phase of work.

The award of a VBAF Site Assessment and Planning Grant is subject to the availability of funds in the VBAF and an appropriation of the Virginia General Assembly.

A committee of VEDP and DEQ staff (VBAF Review Committee) has the sole discretion to award grants from the VBAF Program and Contractors.

Eligible Applicants:

Only political subdivisions of the Commonwealth of Virginia, including counties, cities, towns, industrial/economic development authorities, planning district commissions, and redevelopment and housing authorities, may apply for grants from the VBAF Program.

Applications:

The VBAF Review Committee will evaluate VBAF Site Assessment and Planning Grant Applications (Attachment A) on a rolling basis as funds allow and will award VBAF Site Assessment and Planning Grants based on the VBAF Program priorities identified in these Guidelines.

A separate application is required for each project or phase or phase of work. The proceeds of a VBAF Site Assessment and Planning Grant may be used for multiple properties so long as such properties are identified in the application and connected to a single local redevelopment project plan.

When a Phase I or Phase II Environmental Site Assessment or further characterization as part of an All-Appropriate Inquiry (to meet the ASTM E1527) is being completed, the property may be publicly or privately owned as long as the property has public or private redevelopment potential.

A VBAF Site Assessment and Planning Grant Application may include a scope of work to be performed that includes remediation, removal, and demolition, as described above, so long as the total VBAF Site Assessment and Planning Grant amount sought is no more than \$50,000. Priority for the above activities will be given to projects for remediation of contaminated property to remove hazardous substances, hazardous wastes, or solid wastes. An applicant with a project or phase of work seeking a grant in a higher amount for such activities should file a VBAF Site Remediation Grant Application.

An applicant will be limited to no more than two VBAF Site Assessment and Planning Grant Applications and one VBAF Site Remediation Grant Application per fiscal year.

Local Financial Responsibility:

An applicant must demonstrate a commitment to a project or phase of work and evidence of adequate funding to complete the project for which a grant is made.

A local match of at least 100% is required (Local Match).

A Local Match may be funded by public and/or private sources and must either be:

- (i) cash in the form of actual cash contributions from the applicant or other cash or grants from federal (including EPA Brownfields Grant), other state, local, or private sources of funding; or
- (ii) documented reasonable and necessary costs incurred and in-kind contributions for the site where the VBAF Grant proceeds are to be expended that (a) are associated with the project or phase of work; (b) promote the restoration and redevelopment; or (c) address environmental problems or obstacles to reuse.

Previously awarded grants from the VBAF Program may not count towards such Local Match.

The Local Match must be specifically identified in an application and may include:

- (i) environmental and cultural resource site assessments;
- (ii) environmental testing;
- (iii) development of a remediation and reuse plan;
- (iv) purchase of a property;
- (v) remediation of a contaminated property to remove hazardous substances, hazardous wastes, or solid wastes; the necessary removal of human remains, the appropriate treatment of grave sites, and the appropriate and necessary treatment of significant archaeological resources; or the stabilization or restoration of structures listed on or eligible for the Virginia Historic Landmarks Register;
- (vi) engineering; design, or architectural activities, as well as other costs such as public notices, permit fees and inspections costs (or waivers of such) related to physical activities; or
- (vii) other costs associated with implementation of a remediation and reuse plan.

In-kind contributions must be directly related to the project or phase of work and may include land, equipment, and other property or goods.

Up to five percent (5%) of the administrative costs associated with the overall budget for a project or phase of work may be allocated for the Local Match if such use is outlined in a VBAF Site Assessment and Planning Grant Application.

A higher Local Match will cause the application to be considered more favorably.

The Local Match shall not have been paid or incurred any more than five years prior to the date of an application.

Performance Agreement:

The recipient of a FY 2026 VBAF Site Assessment and Planning Grant will be required to enter into a performance agreement with VEDP, as acknowledged by VRA and DEQ. The recipient must also participate in a mid-point check-in call to provide an update on grant progress and confirm that the timeline remains on schedule.

Should the performance agreement not be executed within six months, the award may be rescinded. The recipient will be entitled to reapply for a VBAF Site Assessment and Planning Grant thereafter, based upon the terms, conditions, and availability of funds at that time.

The performance agreement will be subject to negotiation. It is expected that the performance agreement will contain provisions for, among other things, the disbursement of the grant, the use of the grant proceeds, the Local Match, potential repayment obligations, and the form of reporting, as well as an exhibit outlining the expected scope of work and associated costs.

The performance agreement must be executed immediately upon approval of the grant.

VRA disburses the VBAF Site Assessment and Planning Grant to the recipient. VRA expects that a recipient will provide an Automated Clearing House (ACH) Authorization so that the grant proceeds may be deposited directly into the account designated by the recipient.

Site Assessment and Planning Grants will be paid following the performance date upon the submittal and approval of the Final Report. Applicants facing significant fiscal stress should communicate with the team prior to development of the performance agreement to determine if an alternate payout schedule can be established.

The performance agreement will be subject to amendment for any necessary revisions to the expected scope of work and associated costs.

Extensions for VBAF Site Assessment and Planning Grants will be considered on a case-by-case basis and must be submitted using Exhibit F prior to the performance date. These requests should be for no longer than 12 months from the performance date. Extension requests must include the rationale for the extension and the additional amount of time requested for the project to be completed.

Data and Report Requirements:

The investigation methodology, collection, sampling, laboratory analysis, evaluation, and report development and compilation are expected to be of the quality as would be required for submission to the Virginia Voluntary Remediation Program (VRP) or any environmental regulatory programs which may apply. Phase I work should follow ASTM International's E1527-21 "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process." The recipient and its contractor are responsible for quality assurance for the report(s) developed as part of this process.

Enrollment in the DEQ VRP is strongly encouraged for recipients of a VBAF Site Assessment and Planning Grant to gain the statutory liability protections and to provide agency oversight for site cleanup. If a recipient elects not to enroll the property in the VRP (for sites not under a regulatory program), the recipient is expected to meet appropriate standards of care for reuse of the property in accordance with the VRP. The recipient is expected to maintain all records for facilitating potential future brownfields revitalization of the property, to demonstrate appropriate care, and to facilitate potential future VRP enrollment if necessary.

All tests, analyses, measurements, or monitoring required pursuant to the Commonwealth's air, waste, and water laws and regulations must be certified or accredited by the Virginia Division of Consolidated Laboratory Services (DCLS) Virginia Environmental Laboratory Accreditation Program (VELAP).

Upon conclusion of the performance period set forth in a performance agreement, the recipient of a VBAF Site Assessment and Planning Grant will be required to file a grant report (Attachment B). The grant report should consist only of the actual report template, Exhibit B (Final Budget), and Exhibit D (Invoice Summary). Additional attachments to the report should be separate files and labeled accordingly. The report and attachments should include, among other things:

- (i) a brief summary of the outcome of the project or phase of work;
- (ii) any adjustments to the scope of work and associated costs;
- (iii) documentation of the Local Match, including invoices and other substantiating materials;
- (iv) copies of studies performed as a part of the project or phase of work, which will be subject to review and request for further supporting documentation;

- (v) unless previously provided, a statement that data collected reflects certification by the VELAP;
- (vi) if the property was not enrolled in the VRP, certification that project or phase of work has met appropriate standards of care for reuse of the property in accordance with state and federal Brownfields statutes, and that the recipient will maintain all records for facilitating potential future brownfields revitalization of the property, to demonstrate appropriate care, and to facilitate potential future VRP enrollment if necessary;
- (vii) pre- and post-grant assessed property value;
- (viii) any before and after photographs;
- (ix) for projects including the abatement of lead-based paint and asbestos, detailed reporting of these activities will be required that meet the minimum standards set forth in Attachment B (Submission Guidance). A Daily Asbestos Log (Exhibit E) will also be required. The review of this documentation will be subject to third-party review by appropriate experts.
- (x) To avoid a conflict of interest, it is strongly recommended that separate firms be retained to complete the asbestos inspections/surveys and clearance sampling and the firm that conducts the remediation mitigation.

Upon request of the VBAF Review Committee made any time after the filing of grant report, the recipient of a VBAF Site Planning and Assessment Grant also will be required to file a status report providing an update on the site, including recent economic development activity at the site and surrounding properties since the grant was awarded, additional investment and job creation, and whether the site was successfully marketed to an economic development prospect.

Questions:

Please direct any questions regarding the environmental or technical aspects of a project or an application to:

Karen Weber, CPG
Brownfields Coordinator
Virginia Department of Environmental Quality
P.O. Box 1105
Richmond, VA 23218
804-432-7790 (phone)
karen.weber@deq.virginia.gov

Please direct general questions regarding the administration of the VBAF Program to:

Michelle Mende, Sites & Buildings Specialist
Virginia Economic Development Partnership
901 East Cary Street, Suite 900
Richmond, VA 23219
804-545-5785 (phone)
mmende@vedp.org

ATTACHMENT A

VBAF Site Assessment and Planning Grant Application Instructions

Carefully review the VBAF Site Assessment and Planning Grant Guidelines and the application requirements before completing and submitting the application.

The application should consist of an official application (Parts I through IV) and Exhibits A, B, and C. Additional attachments may be included separately and should be clearly labeled.

Applications for VBAF Site Assessment and Planning Grants will be accepted on a rolling basis as funds allow and will be awarded based on the VBAF Program priorities identified in the VBAF Guidelines.

Only complete applications will be considered.

Use the Provided Format: Applicants must use the format provided and respond using a font size of no less than 12.

Use the Space Provided: All questions should be answered within the space and/or word limitations provided. Certain questions may require attachments. Such attachments should be included as separate files and labeled accordingly.

Application Submittal: All applications and supporting materials should be submitted electronically to:

Michelle Mende
VEDP
Sites & Buildings Specialist
mmende@vedp.org and
vbaf@vedp.org

Karen Weber
DEQ
Brownfields Coordinator
karen.weber@deq.virginia.gov

Please submit large documents (over 10MB) via a file transfer protocol (FTP) site or other digital file transfer services such as Dropbox or Google Drive. Any files over 50MB should be broken down into smaller files prior to submittal.

If electronic submission is not possible, please contact Michelle Mende at 804-545-5785 or mmende@vedp.org.

Part I – Applicant

1. Applicant:

State the name of applicant. Applicants must be a political subdivision of the Commonwealth of Virginia.

2. Site:

Provide the name, address and locality in which the site is located. Please also provide the latitude and longitude of the site. Note that additional site identification is required in Part II.

3. Prior VBAF Program Grants:

State whether the applicant previously was awarded a grant from the VBAF Program for this and other projects. Indicate, if applicable, whether (i) that project or phase of work was completed in accordance with previous performance agreements, (ii) the site was successfully marketed to a new economic development prospect, and (iii) the site generated any additional private investment and job creation. See Exhibit A for a template to track prior VBAF Program Grants and other previous local match allocations.

4. Primary Contact:

Provide the name and all relevant contact information, including physical and email addresses and contact numbers, of the primary contact for purposes of application and administration of the VBAF Site Assessment and Planning Grant. A secondary contact may also be provided.

5. Grant Request:

State the amount of the VBAF Site Assessment and Planning Grant request (maximum request of \$50,000).

6. Certification:

To the best of my knowledge and belief, the information contained in this application is true and correct and the application has been duly authorized by the governing body of the applicant.

Name	_____
Title	_____
Date	_____
Signature	_____

Part II – Site

1. Site identification:

Provide the site's tax parcel identification or lot number. Provide a site location map if available. Provide the name of the property owner. Indicate whether the property is publicly or privately owned. Documentation of ownership may be requested. If privately owned, indicate whether there is an option agreement or some other documentation between the applicant and the private owner demonstrating involvement by both parties, such as a commitment to a competitive sale or lease price, monetary contribution to the project or phase of work, an agreement to permit access to the site, and a partnership to market the property for economic development purposes. Attach such documentation, if applicable. **(100 words or less)**

2. Site Description:

Provide a brief physical description and a brief summary of historical use(s) of the site on which the project or phase of work is located. Attach any detailed site plan(s). Include any photos available. Provide the site's current assessed or estimated value. **(100 words or less)**

3. Community:

- (a) Briefly describe the size of the community where the project or phase of work is located. Indicate whether the locality in which the project will be located has an average unemployment rate above the statewide average unemployment rate **and/or** has an average poverty rate above the statewide average poverty rate. **(100 words or less)**
- (b) Briefly describe any unique assets on or near the site and the workforce, associated training and recruiting programs, and infrastructure that will support this property. **(100 words or less)**

4. Infrastructure:

- (a) Briefly describe existing utility infrastructure (water/sewer, electric, natural gas, and fiber) serving the property and whether and to what extent the project or phase of work will make use of such infrastructure. Provide details on location, capacities, and line sizes. Attach map(s) that show the utility infrastructure in relation to the property. If the property is not currently served by a particular utility infrastructure, describe the nearest infrastructure. Describe any utility infrastructure improvements planned for the site. **(100 words or less)**
- (b) Briefly describe existing transportation infrastructure (road, rail, public transportation) serving the property and whether and to what extent a project or phase of work will make use of such infrastructure. Attach map(s) that provide the location of the transportation in relation to the property. If the property is not currently served by a particular transportation infrastructure, describe the nearest infrastructure. Describe any transportation improvements planned for the property. **(100 words or less)**

5. Environmental Concerns:

- (a) Summarize any known or suspected soil contamination, water contamination, potential vapor intrusion, asbestos, or other environmental challenges at the property. **(100 words or less)**

- (b) Indicate whether the property is currently subject to any federal or state environmental regulatory programs. Briefly describe the current status. **(100 words or less)**

6. Virginia Voluntary Remediation Program (VRP):

Please specify whether the property is currently enrolled in the VRP or if there are plans for it to be enrolled in the future. Briefly describe the current VRP status. Although enrollment is not required for recipients of a VBAF Site Assessment and Planning Grant, recipients are strongly encouraged to enroll to gain statutory liability protections and to provide agency oversight of site cleanup. Recipients will be expected to meet state and federal brownfields statutes for appropriate care for reuse of the property and to maintain all records for facilitating potential future brownfields revitalization of the property, to demonstrate appropriate care, and to facilitate potential future VRP enrollment if necessary. **(100 words or less)**

Part III – Project

1. Project Description:

Describe the overall redevelopment project, including phase of work. Provide description of previous work performed and future work required to complete the redevelopment of the property. **(100 words or less)**

2. Scope of Work Description:

Describe the scope of work to be performed for the project or phase of work and for which the VBAF Site Assessment and Planning Grant will be used. Attach proposals or other descriptions of the scope of work. Summarize the basic findings of any environmental studies or reports describing environmental conditions (e.g., Phase I and Phase II ESAs, remediation reports) that have already been performed at the property and document the need for remediation. Copies of studies may be requested. See Exhibit B for a template to outline the scope of work. **(200 words or less)**

3. Budget:

Provide the total budget for the project or phase of work, broken down by major category of expense and including sources of funding. Attach estimates and any invoices for expenditures already made. See Exhibit B for a template to outline the budget and sources of funding.

4. Local Match:

Describe the type, amount, source, and timing of the Local Match. Local Matches shall not have been paid or incurred any more than five years prior to the date of an application. Please attach documentation, including the date, for any funds previously expended, if applicable. If environmental studies or reports describing environmental conditions (e.g., Phase I and Phase II ESAs, remediation reports) have already been performed at the property, state the dates and costs of such studies, and include any invoices if the expenditures are to be included as part of the Local Match. Include documentation of any EPA funds to be used as part of the Local Match (EPA funds may only be used once for a Local Match; EPA funds used for previous projects or phases of work with VBAF Program Grants may not be counted toward this scope of work; describe how previously-used EPA funds have been allocated to prevent double-counting). See Exhibit B for a template to outline the Local Match. **(100 words or less)**

5. Timeframe:

Provide the expected time schedule for the scope of work. See Exhibit C for a template to outline the timeframe. **(100 words or less)**

6. Virginia Environmental Laboratory Accreditation Program (VELAP:

Affirm that all data collected and submitted to VEDP and DEQ will reflect certification by the Virginia Division of Consolidated Laboratory Services (DCLS) VELAP. VELAP certification is not available for sampling for Asbestos Containing Materials (ACM) and lead based paint. For that data, please provide evidence that the data was analyzed appropriately through an accredited laboratory and provide such documentation. **(100 words or less)**

Part IV – Potential Redevelopment and Reuse

1. Potential Redevelopment and Reuse Plans:

Summarize documented plans for the potential redevelopment and reuse of the property and attach such plans. Discuss the realistic cleanup goals to be obtained such as commercial or residential reuse and the type of institutional controls (deed restrictions/use limitations) to be placed on the property. **(200 words or less)**

2. Economic Impact:

Please provide a concise explanation of how the restoration and redevelopment of this property for economic development purposes would benefit the subject property, as well as the adjacent properties and the surrounding area. Indicate how redevelopment could be a catalyst to larger revitalization projects. Describe how the project would generate additional investment and job creation both directly and indirectly. **(100 words or less)**

3. Strategic or Comprehensive Plans:

Briefly describe the local or regional economic development strategic plan(s), including local or regional comprehensive plans, and describe the relationship of the project or phase of work to such plan(s) including the need for the property to meet economic development needs. Attach copies of any such plans. **(100 words or less)**

4. Zoning:

Provide the current zoning of the property. Describe any changes in zoning that may be required or planned for the property. **(100 words or less)**

5. Prospects:

Briefly describe how the property would be successful in attracting local or regional targeted economic development projects. Describe the commitment to marketing the property. Describe past and current interest in the property for economic development purposes and include any relevant documentation. **(100 words or less)**

Part V – Required Application Documentation

The following documents are required as part of the application.

Please submit each document included as part of the application as a separate file. Do not submit a single file containing all documents.

1. Application
2. Exhibit A
3. Exhibit B
4. Exhibit C
5. Other Supporting Documentation that supports Scope and Budget
6. Proof of asbestos is required if present

Project Report

Project Summary. Provide a brief summary of the outcome of the Project:

1. Adjustments to Scope of Work. In the table below, report any adjustments to the scope of work for the Project (as set forth in Exhibit A to the Performance Agreement) and associated costs (or check the box if no adjustments were made).

☐ There were no adjustments to the Scope of Work for the Project.

☐ There were adjustments to the Scope of Work for the Project.

Approved by VBAF team: _____ (date approved)

ADJUSTMENTS TO SCOPE OF WORK FOR PROJECT				
Scope of Work Adjustment	Budget	Source		
		Local Match	EPA Grant Share	VBAF Grant Share
TOTAL	\$ _____	\$ _____	\$ _____	\$ _____

2. Enhanced Value. Provide assessment values for the Site before the Grant and after completion of the Project:

	Before Grant	After Project Completion
Assessed Property Value:	\$ _____	\$ _____

3. Reports. Attach complete copies of all studies and reports performed and obtained in connection with the Project **as separate files**. Such studies and reports may be reviewed, and supporting documentation or additional materials may be requested.
4. **A summary of each study or report should be included in the Final Report document. Please do not include the full study in the Final Report document.**
5. VRP Enrollment. The Site is enrolled in the Virginia Voluntary Remediation Program (the "VRP") (check appropriate box):

Yes ☐ No ☐
6. Invoices. Attach the Invoice Summary (Exhibit D). Exhibit D and a separate file containing copies of all invoices for the Project should be included with the Final Report.
7. Site Photographs. Attach before and after photographs of the Site.

CERTIFICATION BY A REPRESENTATIVE OF THE GRANTEE:

By my signature below, I hereby certify that: (i) I have examined this Grant Report and the information provided is true, correct, and complete in all respects, and all required documentation is attached; (ii) data collected with respect to the Site reflects certification by the Virginia Division of Consolidated Laboratory Services (DCLS) Virginia Environmental Laboratory Accreditation Program (VELAP); (iii) if the Site is not enrolled in the VRP, the Project has met appropriate standards of care for reuse of the Site in accordance with the VRP, and the Grantee will maintain all records for facilitating potential future brownfields revitalization of the Site, to demonstrate appropriate care, and to facilitate potential future enrollment in the VRP if necessary; (iv) the Grant proceeds have been used exclusively for the Project in accordance with the Performance Agreement, and any unused Grant proceeds will be promptly repaid to VEDP; (v) the Grantee is delivering a signed and complete Asbestos Abatement Report simultaneously with this Grant Report (if applicable); and (vi) all work and activities associated with the Project were performed and conducted in full compliance with all applicable laws, rules, and regulations.

B.2 Supplemental Information for Projects Including the Abatement of Lead Based Paint and Asbestos

1. Introduction and Project Description. Provide a brief summary of the asbestos abatement portion of the Project and its outcome (based on the Asbestos Survey Report):

2. Notifications. In the space below, describe any notifications received from the Environmental Protection Agency (EPA) and/or the Virginia Occupational Health and Safety Compliance Program (VOSH) (or check the box if no such notifications were received).

☐ No such notifications were received in connection with the Project.

3. General Observations. In the space below, provide any general observations of which the VBAF Review Committee should be aware regarding the asbestos and any lead paint abatement processes for this Project.

4. Air Monitoring Reports. In the space below, summarize the Asbestos Air Monitoring Report findings for this project, including abatement and clearance details.

5. Special Waste Shipments. In the space below, summarize any special waste shipments associated with the Project, including the identity of any hauling contractors involved.

6. Waste Disposal. In the space below, report the total quantities of waste materials that required or require disposal in connection with the Project, and identify landfills utilized.

7. Attachments. Attach and label complete copies of all required Project documents to this Asbestos Abatement Report in the following order:

<u>Attachment</u>	<u>Description</u>
A	Daily Asbestos Log (Exhibit E)
B	Accreditation Documentation (DPOR Licenses)
C	Site Map (Abatement Locations)
D	Daily Field Reports (Abatement Activities)
E	Asbestos Air Monitoring Reports (PCM)
F	Asbestos Clearance Reports (TEM)
G	Photograph Log (Abatement Process)
H	CDL Licenses (Special Waste Endorsement)
I	Shipping Documentation (DOT)
J	Disposal Records (Landfill)
K	Building Permit Application (City Code Compliance)
L	Asbestos Survey Report (Type and Location of Asbestos)

8. Note on ACMs and Lead Paint. Projects involving the removal of asbestos- containing materials (ACMs) and lead paint abatement may require specific permitting and licensing requirements, and these criteria must be met. Please check with the Department of Labor and Industry at 804.371.2327 regarding notification requirements and the Department of Professional and Occupational Regulation at 804.367.8595 regarding licensing requirements. Removal of ACMs and lead paint abatement must be conducted pursuant to applicable federal and state laws and regulations, including but not limited to, the National Emission Standards for Hazardous Pollutants (NESHAP), Occupational Safety and Health Administration (OSHA), Residential Lead-Based Paint Hazard Reduction Act of 1992, Toxic Substances Control Act of 1976, VOSH, and Virginia Regulations for Asbestos Emissions Standards for Demolition and Renovation.

CERTIFICATION BY A REPRESENTATIVE OF THE GRANTEE:

By my signature below, I hereby certify that: (i) I have examined this Asbestos Abatement Report and the information provided is true, correct, and complete in all respects, and all required documentation is attached, and (ii) all work and activities associated with the removal of ACMs and/or lead paint abatement and related to the Project were performed and conducted in all respects in full compliance with all applicable laws, rules, and regulations.

WITNESS the following signature.
